PURITER'S

EMULSION

WITH

HYPOPHOSPHITES, &C.

Prepared by J. C. PUTTNER, Ph. M.,

Director of PHARMACY

College.

THE inventor in presenting this preparation

to the medical profession and the public

is aware that it will be considered as a

valuable addition to the resources of the

physician, and as an unequalled emulsion

for the treatment of the most difficult

and gratifying cases. It has been used

in the Public Health Office, and

in numerous private hospitals, and

in all the most celebrated medical

institutions, and its use is recommended

by the most eminent medical authorities.

PUTTNER'S

EELS

—OF—

GOD LIVER OIL

—WITH—

HYPOPHOSPHITES, &amp; C.

BY C. PUTTNER, Ph. M.,

Instructor of Pharmacy, Hall

College.

The inventor in presenting this preparation

to the medical profession and the public

at large, does it with a confidence of

success, based upon the results of its use

as spread during many years in the Lower

Provinces, and its successful outcome by a

large number of the medical men of the highest

standing, who have valued its immediate

and gratifying effects. It has been used

in all the Public Institutions, Hospitals and

Dispensaries with unvarying good results,

and it is not too much to say that its use

is almost universal. It is recommended

by the following authorities:

Hon. Dr. McPherson, M.D., An., Council

Physicians, St. Joseph's Hospital, Halifax.

## WOOD AND WON.

Yes, replied Lady Keraton; 'you could not please me better.'

The slow voice was beginning to

have a magic effect upon her. It soothed,

calmed, delighted her.

This, Diane, continued Lady Hay, 'I

ask you to be my friend, not in the

mere society view of the word not to meet

you at balls and parties, but in the sense

of a friend, one who will stand by you, who

will be with you in all your troubles, who

## Notes on the Cotton Industry.

The Globe and other Grit papers state that the tariff has increased instead of diminishing importations of cotton, which clearly indicates the property of our people.

Had the increased importation affected the profits of the cotton growers in Canada, the arguments of the Grits would be correct; but their fallacy is proven by the fact that the cotton mills now in operation are taxed to their utmost producing capacity and they are unable to fill orders. New mills are projected and the old ones are enlarging and increasing their capacity.

## A NEW COTTON MILL.

A few weeks ago an English capitalist gave through agents of Ottawa, which he would invest \$75,000 in a cotton mill, if a water privilege and sufficient other capital was invested. Within a few days eight applications from different places from across the country to a company have been received, and the matter is now under consideration.

## A NEW BRANCH OF COTTON INDUSTRY.

Any one conversant with the manufacture of cotton, who has visited the Toronto and other Canadian Exhibitions, must have been struck by the great display of hosiery yarns, which is a new branch of the cotton industry, brought into existence and fostered by the present policy.

## OLD TARIFF vs. NEW TARIFF.

Under the old tariff the manufacture of hosiery was unprofitable to manufacturers, and consumers had to pay a higher price for Canadian hosiery than they pay under the present tariff, while at the same time the production is more profitable to the manufacturer. One class of hosiery which sold under the old tariff at 17½ per cent. at \$1.50 per dozen are now in the market (under the new tariff at 30 per cent.) at \$1.20 per dozen, of as good a quality and material, but better made, owing to greater experience in manufacturing.

## RAPID INCREASE OF COTTON MANUFACTURES.

To show how rapid has been the increase of cotton manufactures in Canada, we give the following statistics of importations into Canada of the raw material: In 1870 the raw material imported amounted to 9,730,708 lbs.; in 1880 to 13,277,168 lbs., and in 1881 it amounted to 16,018,721 lbs. or nearly double the amount of 1880. The average to the pound would give the figures for cotton manufactured in Canada in 1881 at 88,102,965 yards.

## IMPORTS OF COTTONS.

The following is a statement of the quantity and value of the unmanufactured description of cottons imported into the Dominion of Canada during the fiscal years ending 30th June, 1880 and 1881 respectively: Cottons, bleached and unbleached, shirtings, drills, ducks, &c., in 1880 \$5,657,513 yds. value \$521,222; in 1881 9,040,015 yds. value \$1,228,232. Ginghams and plaids, dyed or colored, in 1880 275,475 yds. value \$38,073; in 1881 330,475 yds. value \$38,073. Jeans, denim, drills, dyed, tickings, canton flannel, ducks, dry, dyed or colored, checked and striped shirtings, cottons, pantalon stuffs, &c., in 1880 9,761,241 yds. value \$850,792; in 1881 9,761,241 yds. value \$1,228,232.

## Marmora Correspondence.

The first occasionally try to start up again in the woods, but seem pretty well extinguished.

The funeral of the late Mr. Connor, who took place on the 2nd inst., was well attended by neighbors and friends. This being the second death from smallpox within a few weeks in the same household, as last fall his wife had been carried off by the same epidemic.

Wages now for men in shanties, sawyers, are from \$15 to \$20 per month.

A large flock of wild geese passed over here on the morning of the 6th inst., in a long V shape line.

David T. Derry on the 2nd inst. not with a heavy load, as his barn was entirely overthrown by the wind and his buggy smashed. A number of horses were in the stable at the time, and a hole had to be cut to let them out, and even then they were only able to get out with difficulty. Estimated loss \$200 at least.

A boy named M. Maybrow, received a severe kick from a horse on the face on the 4th, and was almost killed, but is now beginning to recover.

## Tweed Correspondence.

Mr. Richard Hicke, of Tweed, left at T. Wray's stage a branch of an apple tree, for well developed apples. It was large and in the center, surrounded by three smaller. All grew on the one stem, like a rose. It is quite a curiosity.

As the County of Bruce is so large, and in the person of Mr. Richard Hamilton. Deceased had been a resident of this county for 52 years and was generally respected by all who knew him. He was from the town of Bruce, in the County of Bruce, and died on Friday the 7th of Oct. inst., at the age of 74 years. His death was caused by that dreadful scourge, cancer, with which he had been afflicted for many years.

He died full of hope in the Lord Jesus Christ. Mr. Hamilton was an honest man, a good husband and true friend. He leaves a widow and two children.

We are so tired of rain just now. The mills in this vicinity are doing next to nothing, as there is no water in the Moira and the Carriage harness which took 1st prize at the Hungerford show (owned by Mr. W. H. Elliott) was manufactured by Mr. W. H. Elliott. He is to be congratulated on his workmanship.

There are some parties around here who are strongly suspected of committing several thefts, such as sheep, and even some horses, and they are narrowly watched. A general charge was made, which ought to have been given.

How to Get Sick. Expose yourself day and night to too much without exercise; work too hard without rest; eat too much of the wrong kind of food; and then you will know.

How to Get Well. What is answered in three words—Take Hop Bitters—In Express.

## Monsieur Farrelly.

BANQUET IN KINGSTON.

The banquet tendered to Monsieur Farrelly, the Mayor of Kingston, took place at the City Hotel in that city, and we learn from the News, a very brilliant affair, the attendance being very large, and many Protestants being present to honor the new Proletaire. Dr. Sullivan occupied the chair, with Mr. W. Power and Mr. J. Meagher in the vice-chairs. On the right of the chairman were seated Monsieur Farrelly and Mayor Power; on his left were the Bishop of Hong Kong, Bishop Clancy, Judge Price, A. G. Gaud, M.P., Col. Twissell (American Consul), and John Croghan, who, a large number of clergymen were present, and many of the leading citizens of Kingston, including Mr. James Metcalf, M.P., Sheriff Ferguson, Dr. Hickey and others. Those from Belleville were Mr. A. Robertson, M.P., Prof. Dwyer, Mr. John Doyle, Ald. R. Costello, and Messrs. Egan, Macdonald, and P. Lynch.

O'Connell was absent in discussing the edibles, when the chairman asked Mr. T. H. McGuffee to read some letters of apology which he received. He read one from Mr. G. A. Kirkpatrick, M.P., stating that he had been called away from the city and therefore could not be present. However, he was rejoiced to hear of the distinguished honor that had been conferred upon the guest of the evening, and hoped he would be spared long to enjoy it. A letter from Principal Grant stated his regret at not being able to be present. He extended his congratulations to Mr. Farrelly, and stated that his administration had been characterized by those qualities that went toward building up the position of the Mayor of Kingston. He wanted common Christian feeling, so that all classes could stand upon a common platform. Mr. Farrelly, also from Mr. D. D. Celym, M.P. of Belleville.

After the usual loyal toasts had been drunk, the chairman said that all the toasts were preliminary, but the one he was about to propose, that of "Monsieur Farrelly," was substantial. During the thirty years which that gentleman had been a priest he had acquired a home in the hearts and affections of the people, which none but an extra good man could do. When he was leaving Kingston for Belleville, the people testified their regret at his departure, and his return during retirement the people were delighted. The manner in which he administered the affairs of the diocese found favor with all classes, and the large assembly indicated how his services had contributed toward promoting the welfare of the city. It is within the province of the clergy to create divisions as well as harmony, and he (the speaker) was afraid if many dioceses were retained it would be found that a clergyman was at the bottom of it. The lay people do not usually fight religion unless there be a cause for it in some materialistic selfishness. Mr. Farrelly always discharged his duties to the benefit of his people, and therefore none differed with him. No doubt all present rejoiced that the Pope had conferred upon him, through the Bishop, a signal mark of his appreciation of his services in the Diocese of Kingston.

The toast was honored, and when the reverend gentleman rose to respond there was unbounded applause. His audience was restrained. Mr. Farrelly said that his position on the occasion was indeed a high one, and one that any person might well envy. The position, instead of giving him eloquence, embarrassed him, surrounded as he was, by gentlemen of all creeds and classes of the good city of Kingston. Among them he beheld the most cultured and literary local scholars as well as a representation of the learning of the City of Kingston. THE inventor in presenting this preparation

to the medical profession and the public

at large, does it with a confidence in its

efficacy, based upon the results of its use

as evidenced during many years in the Lower

Provinces, and its unequalled endorsement

by large numbers of the medical men of the highest

standing, who have watched its immediate

and gratifying effects. It has been used in

all the Public Institutions, Hospitals and

Dispensaries, with unvarying good results,

and it is not too much to say that its use is

indicated in "Prophylaxis" it is recommended by

CHAPTER XLIX.

DIANE AND HER SISTER.

She had conquered herself; she had said

to herself she must be mistress of her

mistress of her own nerves, if ever she

wished to see him again—her son whom she

had thought dead, but who was living.

Lord Kerston, though, afterwards that he

had never seen his wife in spirit; the

pallor and the trembling, however, had

been so marked with the liveliest color,

her eyes were bright as stars; she joined

them at dinner, looking superbly beautiful

in a dress of pale blue velvet.

Lady Day had remained, and was rejected

to see her looking so much better. Never

had Diane laughed and talked more at

home; never had she, in the eyes of those

who loved her, seemed more charming.

She could talk of nothing but Mons. Davard,

his gentleness, his kindness, his love, and

was after all that she had consented to have

her portrait taken.

Then Lady Day looked at her with a

smile, and said that she had never heard

anything so peculiar as a presentation over

one's own picture.

Indeed, Diane's ideas seemed to have

taken quite an opposite direction, as before

she had been the idea of having her

picture taken, now she seemed un-  
willing to rest until it was begun. This seemed  
so many questions that Lord Kerston laughed  
at her.When was the first day that she had  
been home? How many sittings would it  
require? She would infinitely prefer going  
to the studio; she would not like to have  
the picture taken in her own house; she  
would feel more at ease in the studio,  
surrounded by all the art objects, and  
Lord Kerston's face, which she would be  
willing for her to go to.She laughed, but there was something  
strange in the sound. Her husband looked  
up anxiously."You are sure that you are quite well,"  
Diane said."Quite well," she replied. "When shall I  
go, Philip?" when she felt sitting like  
a place.

"You must write and ask Monsieur Da-

vard about it. I will call on him to-  
morrow, and ask him to come to the  
studio, and see how he feels. He is a  
very kind man, and will be glad to see  
you. I am only too happy for you to ac-cede to my wishes on any terms you like to  
propose. He is going to the studio to-  
morrow, and will be glad to see you. I  
am only too happy for you to accede to  
my wishes on any terms you like to pro-

pose. He is going to the studio to-mor-

row, and will be glad to see you. I am  
only too happy for you to accede to my  
wishes on any terms you like to propose."She laughed, but there was something

## The Sufferers by the Bush Fire.

Whist the charitable are contributing

towards the relief of the sufferers by

the bush fire in Michigan—and it is well

that they should do so, for the calamity

occasioned was one of the most wide

spread and disastrous that has ever occurred

on this continent—no steps are being

taken to relieve the wants of those in our

own country who are suffering similarly

from a like cause. Although, fortunately,

the effect of the bush fire in Canada

has not been so terrible as that of those in

Michigan, yet many of the settlers in the

northern townships have lost all their

houses, barns, crops and provisions for

the winter having fallen prey to the flames,

leaving many people who were living in

comparative comfort, in a state of distressing

immorality to be imagined than described.

Winter is close at hand and these destitute

ones, who are for the time dependent upon

their neighbors for food, with which to

sustain life, ought to have some provision

made for them. Cases of this kind are

numerous, and one need not go beyond

the boundaries of our own country to find them.

Therefore, the matter comes home to

us, and it is our duty to do what we can

for the relief of the distressed who reside in

the County of Hastings.

A contemporary suggests that the Ontario

Government should render assistance

where required, and we think the suggestion

a good one; but something ought to be

done to relieve the presents wants of the

sufferers, and that at once.

In fact, the prospect of assistance from

the Government is a doubtful one, for the

Globe informs us that—

On the 29th ult. Mr. Smith, Superintendent

of colonization and for the Ontario Govern-

ment, was sent out in response to numerous

urgent requests from the township

authorities to send for the Ontario Govern-

ment and see what damage had resulted to them

from the bush fire. Mr. Smith, on returning

to the township, says that he went through the

greater part of the bush fire, and saw the

damage done by the bush fire. He says that

the damage done by the bush fire was not

so great as was supposed. He says that the

Hungerford Farm and Cattle Show.

This fair and show took place at Thomas Hungerford's place on the 11th inst. and passed off most successfully.

The articles exhibited were in a general way good and some of them excellent.

The show of cattle might have been better, as the stock in the Township, but it was not brought out.

The show of horses was first rate, as may be seen by the prize given.

Farming about was very conspicuous by their absence. Figures and wags were of the best description, as were the fine sets of harness shown.

The ladies' department was good, but we have seen in the Township shows more of a variety.

Books were number one and so was the great show of the best description, as were the fine sets of harness shown.

total, and some accounts are not a little exaggerated, the transactions are among the largest known for any corresponding period. For export accounts alone, well on to 2,000,000 bales, if indeed not that many, have been taken here and in the interior, while the purchases by dealers and brewers are represented to be considerable larger. In fact, it is stated on the best of authority that at least one-half the crop has already passed from growers' hands, an unusual circumstance at this early period of the season. As for the near future of the market, there is but one belief entertained, namely, that it will be a very lively one. England will undoubtedly recognize

Correspondence.

What correspondence will be accepted

for the expression of their views on topics

of public interest, it must be in all cases

unbiased and expressed in a simple

and concise manner.

To the Editor of the Intelligence.

DEAR SIR:—In common with many others,

I was much disappointed as well as surprised

at the semi-official announcement in your

columns of Saturday evening in reference to

the proposed new Dominion representative

three should favor such a scheme (if they do)

is not strange, for its economy might obscure

the disadvantages apparent to unprejudiced

men; but that the Minister of Justice and the

Premier, themselves, lawyers, should be so

forward or indifferent to the public inter-

ests, does not excite surprise. It is, however,

the late Judge of the Court to the Secretary

such a course was both wise and just, for no

more upright, painstaking and able Judge

ever occupied the Bench of this or any other

County. We do object, however, to the mis-

taken economy which, in the face of a large

annual surplus, will impose on the public an

inconvenience which will require one Judge

to discharge all the judicial duties of this

County. It is well known that this is not

only one of the largest but also one of the

most important Counties in the Province. The

County Court duties, including the Chamber

applications in that Court, in the Sheriff's

Court, and in the County Court, are not

of the first January next, are quite sufficient

to engage the time and attention of any Judge;

and in the performance of those duties of

serious and important nature, it is to be

expected that the Judge will be able to

faithfully discharge his duties in the inferior

Courts.

There are twelve Division Courts and

another about to be opened, extending from

Trevelton to Deseronto and from Belleville

to Amable, in each of which a sitting is held

five times a year, with the exception of Bel-

leville, which has six sittings, Trenton six

and Amable four. The Judge, representing

in all sixty-one sittings a year. Allowing

only one day a year apiece, the Judge is

notoriously insufficient, we have two months a

year that the County Court is practically

without a Judge.

As, however, the Belleville County in-

variably last two days and generally three, as

a great deal of time is occupied in travelling

from Trevelton to Belleville and from Bel-

leville to Amable, it is to be expected that

the Judge will be able to discharge his

duties in a week or two, which will be

for fully three months a year, that is, sub-

tracting legal vacations in which little or no law

is done, about a third of the time, County Court

business and much of the Judge's time must

be devoted to a more convenient season.

The above computation, too, says nothing

of the appeals from the Courts of Revision,

the law of the land, from the various

wards, the records of the various elec-

tions, and the various other duties which

necessitate an absence from the city and may

therefore properly be added to the above

already starting list of duties which two or

three examples may make plain.

A man learns that B, his debtor, who has

more than ten times as much as he owes, is

about to leave the city, and he goes to his

house, and finds him there, and he goes to

his house, and finds him there, and he goes to

his house, and finds him there, and he goes to

Monrovia, Oct. 19.

The bark of Mr. A. McMillan, built only

a few years ago on an elegant and improved

plan, was struck by lightning and burned

with all its contents, including a thousand

barrels of grain, which was valued at

\$600,000. The bark, besides wheat and other

grains, a large amount of hay and straw.

Also 2000 bales of cotton, 6000 bales of

wool, and a large quantity of other goods.

A large quantity of this property belonged to

Mr. C. Barrett. Total loss \$2,000,000 or more.

Insurance \$500,000. A vast crowd assembled

to witness the burning, but it was useless to

fight against lightning when a bark full of

straw, is on fire. The drive house had to be

demolished with water, and the burning

continued with great violence, and

covered with wet blankets, by strenuous

efforts it was saved.

BELLEVEILLE, FRIDAY, OCT. 21.

# City and Vicinity.

THERE were two prisoners and three traps in the cells last night.

The women mill at Hastings is to be enlarged and its capacity greatly increased.

MR. MURPHY'S dredge has arrived from Oshawa and will execute a \$5,000 contract for the Government in dredging the harbor.

For entertainment to be given by the celebrated Kennedy family on the 8th prox. will be under the auspices of the Oshawa Society.

OUT PRINCE, U. S. Consul, and family, will occupy the Murray household for the winter, the Misses Murray being desirous of spending the winter elsewhere.

At the Police Court this morning several cases of violation of the Dog By-law were tried and sentence was deferred in each case. Elizabeth Murphy, a vagrant, was acquitted.

A VERY pleasant and successful entertainment was held at Stirling last night in connection with St. John's Church of that village. Several Belleville amateurs assisted at it.

MR. R. PERRY, Customs Broker of this city, sent forward today for the Campbellford Woolen Mills, a special train consisting of thirteen cars of Cape Wool, value \$41,311.70.

MR. FRED D. STAFFORD, general agent for Anthony & Ellis' Weston Tins and Cabin Co., and Mr. Fred W. Young, agent, are in town, attending for the appearance of the company.

THE expected march out of the 10th battalion yesterday afternoon, did not take place. This was owing to the fact that orders had not been given for Capt. Farley's company to turn out.

MR. J. O. HENDERSON has obtained possession of the old M. E. Church, in which the Christ Church congregation have recently been worshipping, and intends to convert it into a vinery factory.

THE missing lever belonging to the safety valve of the boiler which burst at Mr. Caldwell's farm on the 25th ult., was found a day or two ago. It had been driven into a dung heap near the door of the barn.

VERY seldom has there been such a large quantity of grain brought to town in one day as there was yesterday. Messrs. Downey & Preston alone brought 8,000 bushels in the street, and Mr. Henry Pretty purchased 5,000 bushels.

THE silver trowel which was presented to Mr. L. H. Henderson, on the occasion of laying the corner stone of Christ Church, is a very handsome one. It is on view in the window of the store of Mr. S. A. Spangenberg, the manufacturer.

THE Oka Taveras Club had had luck yesterday in the match with the Cobourg Club. They were beaten in three straight games, in 28, 32 and 21 minutes respectively. The team was a weak one, and the members anticipated a defeat when they went up. But they should have captured at least one game.

THE number of horses which, in Wednesday's issue, gave as having been shipped to the United States from this district, comprised only those which had been shipped to the U. S. Consul's office last night and shipped direct. We have since learned that a large number have been sent from Montreal and shipped from that point. The highest price paid for a horse, moreover, was not \$700, but \$3,000, which was given for the celebrated bay stallion "Tariff," formerly known as "Bob R.," which was shipped in May. "Tariff" was sired by "Clairion Chief," owned by Mr. Harrison Myers, of Trenton. Since his arrival in the States he has trotted at Buffalo, Rochester, Utica, Batavia, Pleasant Park (New York) and elsewhere, his best time being 2:23. He could not now be bought for six times the sum for which he was sold.

WEATHER PROBABILITIES.—Toronto, Oct. 21.—Lakes, moderate to fresh winds, mostly from the southward; fair warm weather, but a cold wave from the north.

A DEBILITATING REPORT.—The Ottawa assessment commissioner suggests that a reform should take place in the system of assessing personal property. He says: "The business man who invests \$25,000 or \$50,000 in business is assessed and is rated on the full amount of his capital while the man who, instead of engaging in business, invests his money in mortgages only pays the taxes on the interest of his capital."

"OLD SHIPMATES."—On Monday evening Mr. Frank Mordant, supported by a good company, will appear in the Metropolitan Hall in the drama "Old Shipmates," written expressly for him. The character which Mr. Mordant assumes is of the central figure of the piece, and, judging from press notices, it is admirably adapted for bringing out the peculiar qualities of his dramatic gifts. The name of the character is Captain Marlowe Waterhouse.

"THE CAPTAIN is a really delightful character, original, manly, warm-hearted, full of generous impulses, and one of the most striking types of a seafarer ever put upon the stage." The performance should be a large house on Monday evening.

THUNDERING DAY.—The streets of the city last night, yesterday, presented an appearance usual on public holidays, owing to the fact that large numbers of guests came to town with their grain, the receipts of which commodity were probably about as large as on any other day of the season.

SERVICES were held in the church of St. John's, Belleville, on Monday evening, at 8 o'clock, at which a large number of persons were present. The services were of a most interesting character, and the choir sang with unusual power.

THE THUNDER DISTASTER.—The Globe Government Commissioner of the origin of the disastrous boiler explosion at Thurlow proves that the construction of the portable steam engine was most faulty. The plates were too thin and too poor in quality; the stays were too wide in pitch; the throat of the screws was too small; and the stay heads too small. Had the throat been finely pitched on the screw stays and larger heads been used on the boiler, twenty-two pounds of steam might have been safely allowed to the engine.

# Hastings Rifle Association Matches.

20th National Cup won by Corp. Milton.

The postponed matches of the Hastings Rifle Association, which took place yesterday, and with them was what proved to be the final match for the 49th Battalion Cup, which was finally won by Corporal Hilton, who started with a 1000 yds. shot.

The whole favorable, the light being deceptive and a light and easily won. The day was not so bright as it had been, but the shooting was made, the 87 out of a possible 105 with which Corporal Hilton won the first prize in the 49th Battalion match being the highest ever made on the range. Messrs. Bigger, Marshall and Hastings also made some very fine shooting. The scores are as follows:—

TOBY TYLER; OR, TEN WEEKS WITH A CIRCUS.  
BY JAMES OTIS.

CHAPTER I.  
TOBY'S INTRODUCTION TO THE CIRCUS.

"COULDST thou give more than six pence for a circus?" was a question asked by a very small boy, with a bright, sunny face, and a pair of eyes that looked as if they were looking out from under a cloud of laughter.

"Who is Uncle Daniel?" was the next question. "Who is Uncle Daniel?" was the next question. "Who is Uncle Daniel?" was the next question.

WOOD AND WON.

And then Diane—Larkston—knew

that whatever might be her fate, she had

a companion in this, her only son.

She heard the sound of voices in the

distance, and she knew that the interview

was ended. It had been an hour of un-

interrupted conversation, and she was

glad that she had been able to see her

son, and to hear him speak, and to

place her hand on his shoulder, and to

look into his eyes, and to feel that she

was not alone in the world.

"You will remember your promise," she

said. "We are to be faithful friends."

"And friendship," she continued, "is a

very sensitive plant; the too strong light

of day often destroys it; you and I had

better keep our compact secret; you will

not talk of me, nor of you, nor of your

friendship, to any one. I have an hour to

spend, I will spend for you, and I will

be no need of saying anything about it. If

WORKING OF THE IRISH LAND ACT.

DUBLIN, Oct. 28.—The Irish Land Act has been applied to the Land Court to fix rates for 3,000 applications for farms have been made. The (pastor) proprietary classes are being put to rest for the want of response from the tenants. A hundred landlords indicated they are willing to sell their estates and a single tenant expressed a wish to buy.

It is stated that every arrangement had been made to send the *United Ireland* yesterday, but the appearance of the paper without leaving articles supplied the legal interests of the (chief) Secretary, and it was decided to postpone the matter.

EMULSION

OF

COD LIVER OIL

HYPOPHOSPHITES, &c.

Prepared by C. E. PUTTNER, M.D.,

of the University of Pennsylvania,

Philadelphia, Pa.

It is a well known fact that

the human system is composed

of many different parts,

and each part has its own

special function to perform.

It is therefore of great

importance that each part

should be supplied with the

proper nourishment to enable

it to perform its function

correctly.

Puttner's Emulsion

is a perfect food for the

## Daily Intelligence.

Belleville, Monday, Oct. 31.  
Improvements by Frontage Tax.

From the St. Thomas News we learn that a committee, composed partly of members of the City Council and partly of private residents of that place, have had for some time under consideration the question of having all street improvements done hereafter by means of a frontage tax upon the various streets on which the work is to be executed.

The Committee, our contemporary states, and Act passed at the last session of the Legislature, under which power is given to any municipality to adopt the frontage tax system after the same has been approved by vote of the ratepayers, is a very desirable one. The Committee has decided on recommending a special Act for the City. One feature of the general Act to which objection is taken is that which provides that all present improvements shall be maintained out of the general fund, the desire of the Committee being that each street should not only make but maintain its own special improvements, such as pavements, sidewalks, and the watering, lighting and cleaning of the street. Drainage and the laying of water-pipes are excepted, for the reason that, as the Times states, "a small sewer may be sufficient for the requirements of one street, but in the interests of sanitation of the city or of the whole city it may be necessary to have the sewer upon such street made of such a size as to render it fit to carry the sewage of each other section or of the whole city. These considerations have induced the committee to recommend the sewers being left under the present law, while the laying of watermain must of course be regulated, to a great extent, by the demand for water for consumption which may exist upon the respective streets."

The question of assessment it is proposed to settle by levying the frontage tax equally upon each foot of frontage, regardless of improvements, the argument in favor of this method being that the improvements enhance the value of all property on the street, and that it is not equitable to burden upon one owner or not equally, but to be imposed on owners of vacant lots to build rather than to hold for speculative purposes. Such a mode of assessment would at all events have the merit of simplicity to recommend it, and certainly it would seem as if it would be less satisfactory than that which at present obtains.

Another feature of the system, as proposed in St. Thomas, is that the improvements, their kind and their extent, their cost, will be regulated by the property owners themselves, a specified number of them, representing one half in value of the property on the street or portion of the street (not less than a block) must first petition for the improvement, and then it can be undertaken. The Council is to have power to keep in ordinary repair such streets as fail to petition, charging the cost to the street.

A somewhat similar system is in vogue in several cities in the United States, and there it is said to have worked satisfactorily. The merits which are claimed for it are, as set forth in our St. Thomas contemporary, that each bit of city property pays for the improvements in front of it, and the character of those improvements is generally regulated by the will of the property owners on the street to be improved. The scheme is considered excellent, in that it insures each taxpayer's receiving an equivalent for the taxes he pays and prevents the possibility of his taxes being spent in the improvement of other more favored localities. It is calculated to stir up local rivalry, as the residents of one street will, it is thought, be desirous of emulating the example of other thoroughfares which may have spent money in improvements, resulting in the general improvement of the city. And lastly, it is believed it will reduce to a minimum the chances for log-rolling and waste, as the residents of each street will be inclined to take an active interest in the works which they have petitioned for, and for which they will have to pay.

The frontage tax system has several times been favorably mentioned in our City Chronicle by the present Chairman of the Finance Committee, but to serious attempt to inaugurate it has been made. Not a few shrewd business men of this city are in favor of it, and, were the example of St. Thomas followed, a mixed Committee of Aldermen and ratepayers appointed to consider the subject, there is no doubt that good would come of such a movement. The system is a new one in Canada, and it is highly desirable that its merits and demerits should be the subject of enquiry and if the result be favorable the ratepayers ought to be asked to pronounce upon the question.

## Editorial Privileges.

"Krupp, the great German steel manufacturer, has just contracted to supply 250,000 tons of steel rails to an English Railway Company." So runs a recent cable dispatch, indicating in an unmistakable manner, that Professor Krupp, our country manufacturer of steel rails, is free to trade England. Thus another Obsolete absurdity is exposed.

The Senecal-Laurier libel suit seems to be a nice little family quarrel. The Montreal correspondent of the St. John's News says: "During all the years that Mr. Laurier has been recognized as a villain and a swindler, Mr. Senecal was a liberal member of Parliament, elected two or three times in succession, and when Senecal appeared to be appointed Senator, Laurier was one of those who signed the petition to the Government. And yet, during all these years, Mr. Laurier declares that Mr. Senecal was known to be unworthy of trust or respect."

The Winnipeg Sun has the following editorial on the recent statement of Sir Richard Cartwright in a speech to his constituents: "Sir Richard was an utter wrong in his presentation of the facts in the political case to the jury of the Senate. He was a man to be trusted. For instance, Sir Leonard Tilley never made any 'pretentious claim to statemanship,' though if he had, it would have been simply the reasonable boast of a business man who might choose to say to some theorist whose ideas worked out miserably in practice: 'I have succeeded in my business and that is the proof that I have pursued a better and more practical policy than the which you recommended, but whose results do not encourage any one to adopt.' The logic of events is inexorable, and nothing can divert the people from the very consequential fact that under the policy which the ex-Finance Minister declared to be ruinous, they have met with substantial prosperity, whereas under another policy which Sir Richard insists was beneficent, they have to endure disaster and loss. It is of no consequence to Sir Richard that he is 'boasted of' taxation so long as the people feel and know that the load is lighter in reality than that under which they formerly suffered so sorely."

## Official Items.

OTTAWA, Oct. 29.  
The Canada Gazette today contains the following:

The Canada Temperance Act has been officially declared adopted by the electors of Cape Breton county, Nova Scotia.

The village of Clinton, in the county of Huron, has been erected into a "Customs out-post," under the survey of the Collector of Customs at London.

In the Militia General Orders appears a complimentary notice from the Governor-General regarding the militia of Manitoba.

The Hon. the Minister of Finance and the Hon. the Minister of the Interior have been appointed visitors to the Royal Military College of Canada in place of Lieut. Colonel Harwood and Professor John Richardson, unable to attend.

Notice is given that application will be made to Parliament at the next session for an Act to incorporate a bank under the name of "The First National Bank of Canada," with its head office at Ottawa, Ontario.

The St. Lawrence Marine Insurance Company of Montreal also give notice of application for an Act of Incorporation.

The Montreal and River Navigation Company will ask Parliament for permission to change their name to that of "The River Navigation and Insurance Company of Canada," and to have their charter amended so as to make the company a limited liability company.

The parties controlling the act incorporating the Chartered Bank of London and North America, will ask for a change in title by making it read London and Winnipeg, with permission to reduce the capital to one million dollars, and to change the head office from Montreal to Winnipeg.

The St. John's Harbour Company give notice of application for an Act enabling them to bridge the Kid River within the parish of St. John and Kildonan in Manitoba, and to collect tolls thereon.

The Montreal and River Navigation Company, in which Robert Jaffray, William Gooderham, George A. Cox, H. H. Cook, and J. H. Dwight are interested, give notice of an application for an Act enabling them to reduce the capital to one million dollars, and to change the head office from Montreal to Winnipeg.

The following half yearly dividends have been officially declared: Bank of Montreal, 2 per cent; Bank of Commerce, 4 per cent; Banque Jacques Cartier, 2 per cent; Bank of Montreal, 4 per cent, and bonus of 1 per cent on paid up capital; Bank of Ottawa, 3 per cent.

The New York Cheese Market.

Saturday's Bulletin says: The choice and fancy lots coming in have again received attention, and the bulk of them are sold on a trade of 150 to 200, but above this shipment will not go, and, indeed, at the close the outside figure is apparently extreme, with some of the trade thinking the edge rather off even on the quality which has been the most showing of advantage. Of other kinds of stock there is plenty seeking an outlet, but very few buyers willing to negotiate, even on the prospect of a late sale. For him on the move market is slow and uncertain, and buyers quite particular over the selection they make.

## Children Burned to a Crip.

FOUR YEARS AGO, ON OCTOBER 27, 1877, IN A HOUSE CHAIR—ANOTHER STARTED THE FIRE WITH KEROSENE.

Friday, Oct. 27.—Thomas Bennett of Ottawa, who lives on the east side of the river, and two children were in the factory. Yesterday afternoon Mrs. Bennett came over to town to trade, leaving four children at home.

—A boy of ten, another a girl four and a baby boy about a year and a half old lived in a chair. While she was gone the eldest child, a boy of ten, had been playing with an exploded, burning the baby and four year old girl to a crip, and setting fire to the chair. Nothing of them can possibly be found.

The seven year old boy had been constantly burned, but the boy who did the mischief was not hurt. This is a terrible disaster to a very poor family.
